

# Twine Recycling

## 3 steps to ensure your used twine can be accepted and recycled:

Pick up, free, twine collection bags from collection sites and select County/MD offices.

# 1

### Shake

Remove as much debris, snow, or ice as possible.

Run the twine through a gloved hand to help remove debris.

# 2

### Bag

Place loose twine\* in a collection bag & secure tightly closed with twine or a zip tie.

# 3

### Return

Bring full bags of twine to your local collection site.

For your nearest collection site, visit [AlbertaAgPlastics.ca](http://AlbertaAgPlastics.ca)

\*Plastic twine only. Bags of twine mixed with netting, sisal twine, or other materials may be rejected, subject to a landfill tipping fee or to additional charges at dropoff.

RECYCLE IT!**

The pilot project is led by the multi-stakeholder Agricultural Plastics Recycling Group; funds were granted by the Government of Alberta and are administered by Alberta Beef Producers.

# Grain Bag Recycling

## 3 steps to ensure your used grain bags can be accepted and recycled:

Grain bags that are returned loosely rolled require more space, are time consuming and difficult to manage with equipment, and they weigh very little, which is inefficient for transportation to a recycling facility.

# 1

### Remove Debris

Grain bags need to be free of as much foreign material (spoilage, dirt, rocks, etc.) as possible.

Using a proper grain bag roller will help achieve that objective.

# 2

### Roll

Grain bags must be rolled tightly with a standalone mechanical grain bag roller\* or old hay baler, and then secured tightly with twine.

# 3

### Return

Bring grain bags that are rolled and tied securely to your local pilot collection site.

For your nearest collection site, visit [AlbertaAgPlastics.ca](http://AlbertaAgPlastics.ca)

\*Most grain bag extractors roll the bags too loosely. Collection sites cannot accept unrolled, extractor rolled, or hand-rolled grain bags. Any improperly rolled bags may be rejected, subject to a landfill tipping fee or to additional charges at drop off.
